this is
her guitar...
the G-41

A child of showtunes.
Dani grew up in a
home filled with
music and theatre.

It's a passion she carries
with her today. A veteran of the
road. Forever gigging. Writing
and performing her music.
Playing her guitar.

it's technology
that makes a
difference.

Our technology creates an
acoustic response and clarity
of tone you have to hear for
yourself. And with features like
the Buzz Felten Tuning System™,
ALL-SOLID wood construction,
a 5-year transferable warranty,
TUSQ® nuts and saddles,
D'Addario EXP strings and
optional Fishman electronics...
it's incredible value. You should
experience a Garrison before
you buy your next guitar.
